

# GREEN PEPPERS

## History

Peppers are native to Mexico, Central America, and South America.

## Fun Fact

Bell peppers are the only members of the pepper family that do not make *capsaicin*—the naturally occurring chemical that makes food taste spicy. Which means bell peppers are not spicy!

# Growing and Harvest

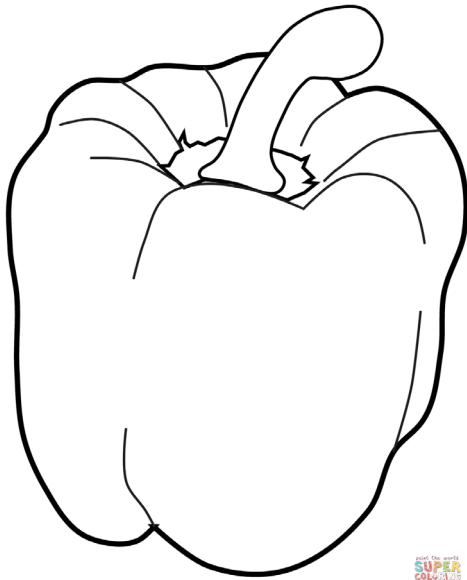

- Bell peppers are commonly a fall crop so farmers plant the seeds in the late-spring or early summer so they grow to full size by fall
