RAINBOW CARROTS

History

The first carrots that were eaten over 5,000 years ago in Afghanistan were primarily purple, white, and even black!

Fun Fact

Rainbow carrots belong to the Apiaceae family along with other vegetables & herbs like cilantro and celery. Fossil pollen from 55-34 million years ago has been identified as being from this plant family.

Activity

Your Rainbow Carrots today
were grown by:

**Van Dessel Farms
in Accomack County, VA**

 **SIMPLE SUBTRACTION** 

Single Digit Subtraction

Subtract the numbers inside the carrot and circle the ones that match up to the number on the top.
