

# YELLOW SQUASH

**Young yellow squash fruit.**

- Yellow squash will make flowers that then need to be pollinated in order to turn into the squash (which is the fruit part of the plant)

**Yellow squash that's ready to harvest!**

# Activity

**Writing Activity:** There are so many different kinds of summer squash! What are the similarities you notice between the ones below? What are the differences? What kinds would you like to plant and grow at home or school?
